

A BUILDING PROJECT?

Taking it... one step at a time.

Starting a building project can be hard. In fact, the final decision about going ahead with the project is often very hard to make. There are so many choices, so many factors to consider...and a lot of red tape to get through.

A FREE PHONE CONSULTATION, WITH NO OBLIGATION

ANDRE MARQUEZ ARCHITECTS, INC. is a local firm with experience in the planning and design of commercial building projects.

Making decisions about your all-important building project is not easy. An architect can find most of the facts you need and put the technical aspects of the project in order.

Once you have the correct information in the precise order of importance, making the decisions will be a whole lot easier. We guarantee that the more you know and are aware of before you start the building project, the fewer surprises you will have. It can help you to save money and choose the right realtor, developer, or general contractor.

To find out how we at Andre Marquez Architects can help you, fill out and fax the Reply Slip to us at 757-228-1053. You can talk to a trained professional without any obligation.

Yes, I would like more information on how Andre Marquez Architects can help my company save on our building project and get reliable data to make the decision easier. We are planning to build within:

Next 3 months next 6 months next year next 2 years other
